▼
- Question:** What terrain? Just road or does it go in grass, rocks, etc?
- Answer:** My son rides this On the grass and sidewalks. We haven't tried gravel so not sure about that. I have to say I think it's holding up well and my son likes it. He's 9.

I Run This Zoo

★★★★★ **Very nice quality and easy to use**

Reviewed in the United States on September 18, 2019

Verified Purchase

The T851 Offroad seems to be a great board so far. It is well built and looks very nice. There are a few different safety features, but I really like being able to adjust the speed limit while learning. It's also pretty neat that the LEDs act as turn signals, that's a nice touch.

It has been very easy for my 13, 11, and 9 year old to use. After a couple of minutes you would think they are pros.

The offroad capabilities are very nice. My son has been driving through the yard both up and down hills and the grass & dirt don't seem to be any problem.

We were very surprised with the bluetooth speaker. It has a very nice rich sound to it and seems just as good of quality as the board itself.

The battery life and charging times seem to be right on par with what is promised. An hour and a

★★★★★ **Powerful Off-road wheels are AWESOME!**

Reviewed in the United States on May 7, 2020

Verified Purchase

I got 2 of these for my 2 boys - knowing they are typical boys who are active and hard on their toys. The hoverboard met and exceeded all our expectations. The app was easy to install and setup was a piece of cake. The 2 modes are useful - child mode and advanced mode...my youngest 7-year old took some time to get used to the speed and control in child mode - before moving up to the advanced mode, with higher speed. The LED lights were a big hit, especially as they could customize their own color. And of course having music playing out the hoverboard speaker was the cherry on top! The offroad wheels are where this hoverboard really shines - along with the strong wheel motors - the offer the biggest advantage over other hoverboards. This allows the wheels to grip and climb pavements and easily traverse grass lawns - and believe me when I say that my boys have thoroughly put them to the test! Compared to previous hoverboard experiences - the battery lasts longer, even when driven hard!

All in all, the hoverboard experience is so much better with this product and I highly recommend it - I'm planning on getting one for myself - after all I'm just a big kid in a grownup body!

★★★★★ **Awesome hoverboard, highly worth investing into!**

Reviewed in the United States on March 29, 2020

Verified Purchase

Purchased this for my 8 yr old daughters birthday and im pretty happy with the investment. I bought and returned a couple of different hoverboards before settling on this one Because i wanted a good battery life and something adults can ride on as well as kids. This is such an awesome hoverboard, great battery life and it does very well on different terrains. customer service was really quick with responses too. overall extremely happy with the purchase and would highly recommend.

★★★★★ **Off-road capable**

Reviewed in the United States on September 23, 2019

Verified Purchase

I am surprised how well this works off-road. My 6yo soon loves cruising all over the driveway as well as dirt trails around the house. He even rode around at a local park where the grass was very bumpy with gophers.

The app could use some work

★★★★★ **5 star Hoverboard !**

Reviewed in the United States on December 16, 2019

Verified Purchase

After a long research I'm Very pleased with the choice of hoverboard:
Very stable (self balancing mode)
Useful app (you can control the speed and adult mode or children)
Great speakers
Strong lights (Important when it's dark outside)
Fun to ride

★★★★★ **Gives him something to do besides video games**

Reviewed in the United States on December 2, 2020

Verified Purchase

I gave this hover board to my 8 year old for his birthday, and he has ridden it almost every day since then. He rides it all around the house and has had it out on the street a few times too. It is very heavy and sturdy. Both my 13 year old son and my 19 year old son that weighs over 200 pounds have ridden it too. It didn't work out so well though for my 46 year old husband though, to no fault of the machine. LOL. It seems that increasing age makes it more difficult to operate though young people have no trouble what so ever. The lights on the front and back are a nice touch and make it visible even after dark. I am really happy with this purchase and to have found something he enjoys except for video games.

★★★★☆ **Good but not 10mph**

Reviewed in the United States on December 25, 2019

Verified Purchase

They are great but the info on amazon is incorrect. It says 10mph max speed. The manual that comes with it clearly states 7.5mph. That needs to be fixed. That is the main reason I bought this brand was for the speed as they are used for carts. They are slower than our other boards that have a max speed of 7.5.

★★★★★ **Great Customer Service**

Reviewed in the United States on October 29, 2020

Verified Purchase

Our hoverboard arrived faster than expected and was exactly as described in the item description. My 11 and 8 year olds had no issues learning to use it quickly.

The only issue was that the box did not contain the charger or the User Manual. I contacted the company and they responded right away (which was on a weekend). They shipped the missing parts right away. I like it when a company quickly makes things right and without any push back. Great customer service in my opinion! Currently waiting for the missing items. I'll follow up if they don't arrive soon but I suspect that they will.

cool features. Would definitely buy again

This product was amazing! My kids absolutely love it and cant get enough of it. My husband bought them a hover board and they really enjoyed that. I was browsing amazon and saw this kart from the same store. I knew I had to surprise them all with it! My husband assembled it quick and he absolutely loved it. The next day the kids tried it and had so much fun. It is much safer to ride and could go on all surfaces. Grass is difficult for adults and that doesn't matter.. It is well built and has a ton of

★★★★★ Fun Hoover for the family !

Reviewed in the United States on May 22, 2019

Verified Purchase

The quality is amazing; it feels very sturdy and strong. It holds my weight of 210 pounds with no problem. I also like how the fiber carbon parts makes it feel strong and look sleek as well.

The dual motor is very responsive and powerful, I was amaze how smooth they are making the self-balancing feature. It is extremely helpful to anyone especially for beginners like me and my wife. It was helpful that the maximum speed of 12.0km/h can be adjusted

using the mobile application and the children and adult modes make it versatile for everyone.

★★★★☆ Buyer Beware!!

Reviewed in the United States on June 30, 2020

Color: blue-T581*kart | Verified Purchase

My son enjoyed this hoverboard on his birthday early May for a full 30 minutes, and although he liked it in that very brief time, it died. After contacting Gryoor, they insisted I contact them directly outside of Amazon. They would replace the motherboard for "free." It arrived at their office on May 22 and I have not heard anything since. Essentially, they stole the \$279 I paid. Shame on them.

★★★★★ **Sturdy Hoverboard and Great Customer Service**

Reviewed in the United States on January 16, 2020

Verified Purchase

I purchased this board for my 11 year old son and he loves it! The lights and wheel illumination are great! He loves that both can be changed through the app as well as play music from a device through the speakers on the board. The motors are more powerful than most hoverboards out there. Construction is solid and balanced.

We needed some help from customer service soon after opening it, so I emailed them. A representative responded very quickly and stayed in touch until we were completely taken care of. I feel like Gyroor went the extra mile. It was really nice! Great company and product.

★★★★★ **great for children,**

Reviewed in the United States on June 4, 2019

Verified Purchase | **Early Reviewer Rewards** (What's this?)

Packaging: very well packaged no dents scratches or marks on the hover board. Foam is placed properly inside the box to protect the board from damage.

Ease of use: This is made for children under 12 in my opinion. It is a little smaller than other boards out there. The wheels are a little smaller than others I have seen. But for my 7 year old daughter it is perfect. My daughter hopped right on the hover board and took off right away. she spins around

Easy to use. This is made for children under 12 in my opinion. It is a little smaller than other boards out there. The wheels are a little smaller than others I have seen. ★★★★★ 10/10 fun factor, but be careful!

Reviewed in the United States on October 5, 2020

Color: blue-T581 | Verified Purchase

Just got this for our 8yo son. It's the coolest thing he's ever had. Can't comment on longevity of the product, but initial fun rating is a 10/10. Speaker quality is fine. App control with lights and speedometer are fun but not necessary. It's a little too heavy for him to carry safely on his own. Came charged enough to play around with for a couple hours. He's pretty confident on it after just a few days of riding mostly indoors. Stay away from cabinets and trim. Unfinished basements and outside are best to learn to ride it. Adults be careful. This is not a skateboard, scooter, or a Segway. My wife got on, did 4-5 full speed rotations, and got flung off like it was a mechanical bull.

This product was amazing! My kids absolutely love it and cant get enough of it. My husband bought them a hover board and they really enjoyed that. I was browsing amazon and saw this kart from the same store. I knew I had to surprise them all with it! My husband assembled it quick and he absolutely loved it. The next day the kids tried it and had so much fun. It is much safer to ride and could go on all surfaces. Grass is difficult for adults and that doesn't matter.. It is well built and has a ton of

★★★★★ **Fun Hoover for the family !**

Reviewed in the United States on May 22, 2019

Verified Purchase

The quality is amazing; it feels very sturdy and strong. It holds my weight of 210 pounds with no problem. I also like how the fiber carbon parts makes it feel strong and look sleek as well.

The dual motor is very responsive and powerful, I was amaze how smooth they are making the self-balancing feature. It is extremely helpful to anyone especially for beginners like me and my wife. It was helpful that the maximum speed of 12.0km/h can be adjusted

using the mobile application and the children and adult modes make it versatile for everyone.

★★★★★ **Buyer Beware!!**

Reviewed in the United States on June 30, 2020

Color: blue-T581*kart | Verified Purchase

My son enjoyed this hoverboard on his birthday early May for a full 30 minutes, and although he liked it in that very brief time, it died. After contacting Gryoor, they insisted I contact them directly outside of Amazon. They would replace the motherboard for "free." It arrived at their office on May 22 and I have not heard anything since. Essentially, they stole the \$279 I paid. Shame on them.

★★★★★ **Sturdy Hoverboard and Great Customer Service**

Reviewed in the United States on January 16, 2020

Verified Purchase

I purchased this board for my 11 year old son and he loves it! The lights and wheel illumination are great! He loves that both can be changed through the app as well as play music from a device through the speakers on the board. The motors are more powerful than most hoverboards out there. Construction is solid and balanced.

We needed some help from customer service soon after opening it, so I emailed them. A representative responded very quickly and stayed in touch until we were completely taken care of. I feel like Gyroor went the extra mile. It was really nice! Great company and product.

★★★★★ **great for children,**

Reviewed in the United States on June 4, 2019

Verified Purchase | **Early Reviewer Rewards** (What's this?)

Packaging: very well packaged no dents scratches or marks on the hover board. Foam is placed properly inside the box to protect the board from damage.

Ease of use: This is made for children under 12 in my opinion. It is a little smaller than other boards out there. The wheels are a little smaller than others I have seen. But for my 7 year old daughter it is perfect. My daughter hopped right on the hover board and took off right away, she spins around

goes forward and backwards with what appears to be no effort she loves it!! I am 36 years old and

★★★★★ 10/10 fun factor, but be careful!

Reviewed in the United States on October 5, 2020

Color: blue-T581 | Verified Purchase

Just got this for our 8yo son. It's the coolest thing he's ever had. Can't comment on longevity of the product, but initial fun rating is a 10/10. Speaker quality is fine. App control with lights and speedometer are fun but not necessary. It's a little too heavy for him to carry safely on his own. Came charged enough to play around with for a couple hours. He's pretty confident on it after just a few days of riding mostly indoors. Stay away from cabinets and trim. Unfinished basements and outside are best to learn to ride it. Adults be careful. This is not a skateboard, scooter, or a Segway. My wife got on, did 4-5 full speed rotations, and got flung off like it was a mechanical bull.

Question: For everyone that gave this hoverboard 4 to 5 stars, how long have you been using it without any problems?

Answer: 6 months. Daily use on hard surfaces and grass, no issues. Good power, good app, great batteries. If you want the best, stop here. This board is not a toy! Well build, and can easily handle a seat attachment. Rides higher than most other boards.

Question: What app to download? and from where? looked on android play store, and didn't find anything with the name gyroor. also, some of the answers regarding app are confusing -- some say it works with app, other say it doesn't.

Answer: Hello, thanks for your question. Gyroor new version hoverboard with app is on sale now, and the app name called Gyroor, it can be downloaded at smartphone store or scan the QR code at the back of the user manual.

Question: Why does my G2 only charge for 30 min before the charging pack says it is fully charged but the led lights are red when riding?

Answer: Does it still last long when riding? My son's does that but I notice that it's blue on one side and red on a other. I don't think it has to do with the charge.... His lasts several weeks before needing to recharge. He just rides off and on, not long rides.

Question: is this hoverboard FAA compliant, can it be shipped or carried aboard a commercial aircraft?

Answer: no hoverboard can be carried on an aircraft. EVEN if the battery power is below TSA and FAA regulation they all say the same thing "it down to the individual airline". The airlines say specifically no hoverboards. I wrote this: <https://thetechieguy.com/can-travel-flight-electric-skateboard/>

★★★★★ **BEST hoverboard!!**

Reviewed in the United States on August 15, 2018

Color: black | **Verified Purchase**

We got this for our 13 yr old daughter! We love the app you can download on your smartphone. The app has a self balancing mode, adult mode, you can set the speed limit, change LED lights, shut the hoverboard down and a few other functions. We think it is a lot better than the others because of the rubber tires. My daughter even brings it in (after cleaning the tires) and rides it around on our hardwood floors with no damage to them. The speakers on it are great too!!

★★★★★ **Great Product**

Reviewed in the United States on November 27, 2018

Color: black | **Verified Purchase**

This was my first hover board wasn't sure how long it would take me to learn to ride it. After like 30 minutes of training on my own against a wall I was able to ride it with no problems.

The only thing I find bad about this hover board is that every time it starts up it makes a really loud starting indicator noise and says Bluetooth on which I wish I could switch off. Also sometimes when I get off and if it hits something it keeps beeping and won't stop until I power off and back on again.

Apart from these two things I think the hover board is pretty great.

★★★★★ **Best Hoverboard on the market**

Reviewed in the United States on September 12, 2018

Color: black | **Verified Purchase**

This Hoverboard is absolutely the best on the market. Its fast and extremely sturdy. Made of quality materials. The Hoverboard is a bit pricey compared to the cheap plastic knockoffs, but you get what you pay for. Would purchase again and I definitely recommend this product.

P.s.

You can charge the battery from 0 to 100 real quick. Yeah under 3 hours and u get approx. 10 miles with a full charge.

★★★★★ **Worth it!**

Reviewed in the United States on August 3, 2018

Color: black | **Verified Purchase**

Easy to use once you get the hang of it. Lights are awesome as is the sound system. Getting the app on an iPhone was a bit difficult. Self balancing feature nice. Functionality is bar none. Doesn't work too well on the grass, haven't tried on gravel. App works well, wish it could change to mph instead of kph.

★☆☆☆☆ **Problems with Shaking and stopping**

Reviewed in the United States on October 9, 2018

Color: red | **Verified Purchase**

I bought 2 of these hover boards for Christmas during the Amazon customer appreciation event in July. In October the kids just couldn't wait any longer so I gave them their boards early while the weather was still nice. They loved them! However within a few hours of using them, one of the boards was shaking and stopping. My grandson has fallen off twice and injured himself because of this defect. I would love to give this 5 stars because it is well made and the kids love them. But the shaking and stopping is not safe and negates any Positive benefits. We have tried to contact seller but not successful yet.

★★★★★ **Super fun!**

Reviewed in the United States on August 9, 2018

Color: black | **Verified Purchase**

Bought this because hubby was jealous of our boy's hover board. The higher weight capacity and off road tires are a huge selling point. Easier to ride than the smaller kid size, more stable feeling. Had an issue with the charging port but Gyroor took care of it no problem!

Reviewed in the United States on July 10, 2018

Color: red | **Verified Purchase**

such a great hoverboard! very easy to ride even for a first-time rider and my kids just got on and within minutes they were zipping around the house. Great quality, cool lights give it that futuristic look and it seems to hold a charge for a long time. The tires are massive which gives the board a really good height, comfortable ride, and even riding outside on lawn is no problem. Highly recommended!

Question: What is the range on full battery

Answer: A recent trip was 2.2 miles total on asphalt with 1 very steep hill, and two medium hills. The rider was a child that weighs about 65 pounds. This used about 50% of the battery life. In Roughly 1 1/2 hours use.

did not have any problem!

Read more

OK I don't know where to start but before I was buying hoverboards on the Amazon and those Hoverboards have been working the most for couple months before they break. I even told my kids I'm not buying hoverboards anymore! Because it's a waste of money, they just keep breaking! Until I bought GYROOR hoverboard! I bought one for my son and he loved it! So my second son asked me to buy one for him too. So it has been six months since we own GYROOR hoverboards and

★★★★☆ **OK but not for cart attachment.**

Reviewed in the United States on January 21, 2021

Color: Soild tire-black | **Verified Purchase**

I like that it is easy to use once you learn to get on it. I thought I had mastered it after using it a few minutes but then I went on it to show my son and I went down hard. I don't know if I stepped on it wrong but I have not had any other accidents like that. Plus, I have been keeping it on the children mode which I think helps.

The speakers sound good!

The child setting is best for learning. It "limits" the speed to 3.6 MPH. I say "limit because" it doesn't really limit the speed. More on that later.

I choose this model because I thought it is capable of going 10mph but frankly, I don't feel safe going over maybe 6 mph.

Now on to the things that disappointed me.

I purchased this with the plan to use it with a cart attachment but when attached a cart to it, I found it difficult to control. The hoverboard would speed up very rapidly even when set to children

Andrey S.

★★★★☆ **Very unhappy with this hoverboard.**

Reviewed in the United States on March 12, 2021

Color: Soild tire-blue | **Verified Purchase**

I bought this hoverboard for my 2 kids.

It arrived fairly quickly and the packaging was OK.

The first problem: one side of the power supply cord was missing (power outlet plug to power transformer). I felt like returning it right then, but the kids really wanted to try it out so I had to create a makeshift connector using an old laptop power cable to charge the battery up. It took about 3 hours until it was fully charged. I emailed the seller and they sent me an entire power supply in about a week.

This unit worked OK for about 2 weeks and then, suddenly, it stopped balancing, meaning the left side was tilted forward at all times while the right side was level to the ground. It was still possible to ride it, but it just wasn't right. I tried re-setting it using the manual provided to no avail. At that point I decided to return it.

Couple more notes that are not critical, but should be a good FYI for those who consider investing in this thing:
